

Jesus Christ was absolutely **NOT** born on December 25th. By using information given to us about the conception and birth of John the Baptist, statements about the conception of Jesus as well as the priestly divisions laid out in Leviticus, we can accurately estimate the Birthday of Jesus to be early to mid September. This calendar shows the relationships between our solar (Gregorian) calendar, the Hebrew lunar calendar, and the schedule of the Levitical priests. I believe Jesus was probably born on 9/11 which was then purposely chosen for evil by the rulers of the world in order to tarnish the birthday of our Lord.
